Safe and Orderly schools	The Cumberland County School System (CCS) has a commitment to excellence in providing a safe and healthy workplace. Safety of employees and students must be given first priority in every activity. To that end, all our employees have access to our district Safety Manual and Crisis Management Handbook on the CCS intranet. The Safety Manual is provided to help schools insure their day to day practices are in line with best safety practices, prepare for events that can be better managed with a safety plan, and outline protocols for handling potentially hazardous materials in our schools. Although a crisis is an event that is extraordinary and cannot be predicted, the Crisis Management Handbook was prepared to provide the principal and the local crisis team a quick reference guide of procedures to follow when a crisis occurs that affects the school.	

Review of the SIP plan and notification of changes	As a part of our continuous improvement process, all schools create 2 year School Improvement plans. At the end of the first year of the plan and once test scores are received, the School Improvement Team will review both academic and organizational goals and make changes as needed. The superintendent's designee will be informed when the plan has been changed.
